

ZIG ZAG REDI LOCK

Zig Zag grinding segments are a high performance, additional tool for use in surface preparation applications where high speed is required.

- For speed and aggression on harder concrete
- Great glue and coating removal results.
- Designed for applying high pressure offering greater stability than traditional thin segments.
- Multiple leading edges increase the speed and decrease the heat of the segments more effectively than conventional tools increasing performance output.
- Money back satisfaction guarantee.

APPLICATIONS

- Surface Preparation
- Aggregate Exposure

SPECS

- Grit sizes: 6,16 and 30
- Medium, Hard and Very Hard bonds.
- Available in Single or Twin segment versions

FEATURES AND BENEFITS

- Incomparable production rates
- Outstanding removal/grinding capacity
- Extended tool longevity
- Extensively field tested
