

TRIX5

Concrete grinding and polishing outcomes are a direct result of the tools used to master the TRIX of the trade! The new TRIX5 is a multi-purpose diamond tool essential for every contractor's tool box.

FEATURES & BENEFITS:

- Large diamond surface on flush side enables easy grinding & bevelling.
- Corrugated outer edge enables cutting function.
- Lightweight design makes it easy to finesse detail work.
- Easy attachment to angle grinder due to threaded side-mount boss.

APPLICATION:

- Bevelling edges of concrete benchtops, hearths & stairs.
- Excellent for cleaning out saw-cut joints in concrete slabs.
- Under cutting/grinding of skirting & door jambs.
- Cutting of masonry materials.

SPECIFICATIONS:

- 125mm (5").
- M14 thread attachment.
- 3mm thick.
- Wet & dry use.
- Available in grits 30/40 & 100/120.
- Maximum recommended speed 10,000rpm.
