

TURBO RIM CUPWHEEL RANGE

NEW TURBO RIM CUPWHEELS: FAST, AGGRESSIVE, SMOOTH!

- An awesome cupwheel range for hard to very hard concrete.
- Slightly more aggressive cut and scratch pattern than the REFINE range 60/80 and 100/120 grit are great for removing stubborn scratches.
- Will "stay open" longer when grinding, particularly when not using any floor treatment agent to keep them open.
- Premium edge grinding due to continual diamond perimeter with minimal "rounding" of outer edge of the cupwheel segment.
- Available in 30/40, 60/80 & 100/120 grit in 125mm (5") and 180mm (7").

FEATURES & BENEFITS:

Almost continual diamond array around the perimeter these wheels allow for smooth grinding.

Grinding hard to very hard concrete.

APPLICATION:

Concrete grinding, repolishing and surface preparation of concrete & masonry surfaces with hand held machines.

SPECIFICATIONS:

125mm (to suit Hilti) & 180mm diameters

8mm segment height

30/40, 60/80, 100/120 grit

Soft bond hardness
