## Totally Cut Sikk is the grinding compound of choice for fantastic metal bond grinding impact. Cut Sikk comes in two formulas:

---

### TOTALLY CUT SIKK REGULAR (TCSR)

#### BENEFITS:

- Maximises grinding performance on hard to very hard concrete
- Designed to keep diamond tools at their sharpest
- Promotes consistent grinding performance whilst increasing the aggressiveness of the tool at hand.

#### FEATURES:

- Promotes greater material removal.
- Enhances scratch pattern consistency.
- Significantly increases grinding speed.
- Water based.
- Easy to apply.

#### RANGE OF APPLICATIONS:

Suitable for (but not limited to) use on the following materials:

- Concrete.
- Terrazzo.
- Natural Stone.

### TOTALLY CUT SIKK AGGRESSIVE (TCSA)

#### BENEFITS:

- Maximises metal bond grinding performance for the removal of surface contaminants e.g. glues, chlorinated rubber, paints etc.
- Contains highly aggressive particles designed to increase abrasive action of the diamond tool.
- Delivers high speed outcomes.

#### FEATURES:

- Promotes greater material removal.
- Reduces the incidence of diamonds "clogging up".
- Significantly increases grinding speed.
- Water based.
- Easy to apply.

#### RANGE OF APPLICATIONS:

Suitable for (but not limited to) use on the following materials:

- Concrete.
