

FORMULA WORX TOTALLY CARE (TCFC)

As part of the **Formula Worx range** of floor treatment products, TCFC is a unique cleaning agent made of natural compounds to provide cleaning properties distinct from common detergents.

Free from bases & phosphates it contains no gloss agents, waxes or polymers. Leaving treated surfaces free of film or topical residue commonly associated with conventional cleaning agents which normally result in surfaces attracting dirt and residue at an accelerated rate

FEATURES & BENEFITS

- Biodegradable
- Highly concentrated
- User friendly
- Water soluble
- Non- toxic
- Enhances the appearance of finished floor

USE

TCFC can be used on rough or smooth surfaces, sealed, glazed, treated or untreated. It is excellent for, (but not limited to), use on the following materials:

- Concrete
- Stone
- Slate
- Terrazzo
- Engineered Stone
- Vinyl flooring
- Timber flooring
- Epoxy coated / painted floors

SPECIFICATIONS

- Unique WORX+ formulation.
- Available in 1 or 5 litres

APPLICATION

For every 10L of water, add 20-40ml, (2-4 tablespoons) of Totally Care. Wipe/mop surfaces with diluted product and allow to dry.

ADDITIONAL INFORMATION

Consult Safety Data Sheet / MSDS prior to using material.
